No need to do anything on this now, but this is just a heads up.

I will be reviewing this and making some final edits today.

Also, I will call you shortly about EtO.

David.

David- I used Shanna's revised document and I made changes to the SENSOR write

up. I included the most current SENSOR language that I recently updated and improved for our memos. I have made my edits in Track Changes so you can clearly see what I added and what I took out.

The current draft for you is attached here. Please use this draft, sent at 9:52 am, for Shanna and my edits.

Liz

Hi David,

I think it looks good. I made some minor edits.

Shanna –

## Ex. 5 - Deliberative Process

So ... could you please look through the Section V here on Incidents (just that one is fine) and make sure I didn't screw anything up with my edits and added additional information. And ensure that what I added in is indeed right – and still right. Is this something you could please do as soon as you start work on Monday? The section is not that long, pretty straightforward

and you know this stuff cold, so I suspect it will be pretty fast. Again, feel free to make changes directly in the document using track changes.

I will ask Liz to do the same when she gets in. And probably James or Bayazid (later) for the epi parts I added in, once you both are done with your edits/changes.

Thanks.

David.

Hey David

Most of the edits on the other sections are nearly done. When do think you'll get to it?

Can Liz, Ashley or Stacy help out to speed things up?

Anna

Anna,

I'll be there late. Something came up with HSRB prep which is due out this week.

Thx
